ROLE OF LMO – PRODUCTIVITY COMMISSION DEFINITION

- **All gaming machines in Queensland's licensed clubs and hotels are monitored by a licensed monitoring operator** or by the Dial-Up Computerised Monitoring System owned by the State and operated by the Queensland Office of Gaming Regulation.
- QOGR uses the meter information acquired by the monitoring systems to **calculate the tax, levies and rental due and to produce monthly invoices for the venues.**
- The systems generate the equivalent information for the **monthly Electronic Funds Transfer sweep of venue accounts** to transfer the monies to a Treasury account.
- This meter information **combined with the security event information is used for compliance, gaming services and technical functions.**
- The meter readings and security events obtained are used by QOGR to **ensure both the integrity of gaming machine operations and that the correct revenue is collected** on behalf of the Government.
